

This Knowledgebase

This knowledgebase is built on [Bookstack](#), an open-source platform for information sharing. It is integrated with Matt-Cloud SSO, and logs in automatically with Matt-Cloud SSO. This will allow you to comment on any of my Matt-Cloud documentation articles, and also create your own books in here. All the relevant Matt-Cloud documentation is visible once logged into Authelia. This knowledgebase can be thought of as the Matt-Cloud Wiki both for reference for all my lovely users as well as a platform for y'all to document or share whatever you want. Anyone remember [forum.tiberiusrobustus.net](#) from the days of yore? At least I won't be leaving this abandoned in the vortex closet.

Revision #7
